

Professional Wi-Fi Design

Ekahau Site Survey is an enterprise-grade Wi-Fi design and maintenance tool for Wi-Fi professionals.

FOR LIMITED TIME ONLY:
Ekahau Site Survey 8 (ESS 8)
incl. 1-year maintenance
and save up to 500 €

FASTER, HIGHER, FURTHER:

NETWORK PROFESSIONALS NEED TO BE AWARE OF THE 802.11AC STANDARD!

The demand for high data rates and mobility is growing constantly; there are new network devices which only connect to the wireless. This increases the need for bandwidth in the Wi-Fi network. Only professional planning and deployment ensures the required data throughput and the desired stability for the Wi-Fi

NEW ESS VERSION 8.0 – FASTER WI-FI PLANNING, THROUGHPUT SITE SURVEYS

- Faster planning and verification
- Automatically imports walls and scale from CAD files
- Customizable Reports
- Full support for 802.11ac, 802.11n, and 802.11abg
- Throughput and Performance Testing
- Multi-Adapter Support
- Over 400 new Antennas and Access Points
- Visualize changes in signal strength over time

PROFESSIONAL NETWORK TESTING & PROTOCOL ANALYSIS

FUNCTIONS EKAHAU SITE SURVEY 8

Functions	ESS PROFESSIONAL	ESS STANDARD
Supported Operating System	Windows 7/8	Windows 7/8
Supports 802.11ac as well as 802.11a/b/g/n	●	●
Hybrid Site Surveys: Passive and active surveys simultaneously	●	●
Automatically locates all Access Points	●	●
Signal strength coverage in real time	●	●
Displays: Signal-to-noise ratio, Interference, Data rate, Number of access points (overlap), strongest access point etc u.v.m.	●	●
Tools to optimize WIFI networks such as data-, VoIP-, Video- or Location Tracking	●	●
Network Performance Test and Simulation of various WIFI Adapter and Devices	●	●
Data-Throughput Testing (iPerf 2 & 3)	●	●
Multi-Adapter Support (up to three adapters simultaneously)	●	●
Convert CAD drawings into walls	●	
Planing, editing of Wall materials, wall height	●	
Auswählen und Anpassen von Dämpfungsbereichen	●	
Planning and Analysis of WIFI capacity	●	
Automatic AP placement & channel assignment based on coverage and capacity requirements	●	
Automatic 3D & 2D WIFI Planning	●	
Fully automatic and customizable reports	●	
GPS enabled outdoor surveys	●	
Spectrum Analysis to localize non-Wi-Fi devices (Provided with DBx Spectrum Analyzer Pro)	Optional	Optional

FOR A LIMITED TIME ONLY ...

Save up to 500 € from list price when buying Ekahau Site Survey 8 incl. a 1 year support & maintenance contract.

Fax-Back

Yes, I would like to buy ESS 8 at a bargain price and get 1 year of free updates:

- ☐ ESS 8 Standard incl. 1-year maintenance for **€ 1.979*** instead of € 2.235*
- ☐ ESS 8 Pro incl. 1-year maintenance for **€ 3.979*** instead of € 4.479*
